

Pre-Wedding Questionnaire

Or you can fill this out at www.daveymorgan.com/clients.html (or download a Word document)

For any wedding day questions, who should we contact and what is their number?

Are there any family dynamics that we should know about that will be helpful for photography?

We would love to take pictures of the dress hanging, the shoes, and all **three** of the rings (both wedding bands and the engagement ring). Where will the dress, shoes, and rings be the morning of the wedding?

What time and where are the guys getting ready?

What time and where are the girls getting hair and makeup done? Where will they be getting dressed?

Are you having a first look?

When do you want to start the guys and girls photos? If you are having a first look, it's best to start 3.5hrs before the ceremony, otherwise we like to start 3hrs before the ceremony. We recommend both guys and girls be told to be ready at the same time. We prefer to start doing the girls pictures first, but if they are not ready in time we can start with the guys pictures. It takes about thirty minutes each.

What time does the ceremony start, and when is it expected to end?

What time does the reception start, and when is it expected to end?

Are there any restrictions on photography during the ceremony? (We don't use flash, we are really quiet and conservative with taking photos, and don't move around.) May one of us stand in back and the other sit on the front row to the side?

What events will take place at the reception (ex. first dance, father daughter dance, mother son dance, cake cutting, bouquet toss, bubbles/sparklers exit, etc)? Do you have a timeline for the reception?

Is there anything else important for us to know?
